## "He Has Worked Hard All His Life"

to leave nothing for his wife and children," is an expression we often hear. Will this be said of you? It takes some thinking, as well as working, to get ahead in this world. All men who think know one thing is absolutely necessary to get ahead, and that one thing is "saving ability." If you can't save anything you are on the sure road to a gloomy old age. Better stop working long enough to figure out what is the matter with you. If you can't save turn your earnings over to the wife for a few months and see if she is any better financier than you are. Sometimes the wife handling the money makes all the difference in the world.

### Good Shooting in Borneo.

Borneo is practically an immense game preserve. The white inhabitants have neither time nor inclination to do any hunting, so that the game with which the country abounds is rarely disturbed. Elephants and rhinoceroses are so plentiful that they are a nuisance to rubber and coconut estates by destroying young trees.

### FAY PLANNED DESTRUCTION

Of American Ammunition Ships—He Says Belongs to Germ. Army.

New York, Oct. 25.—Robert Fay, a lieutenant of the 16th Saxony Infantry, admitted to-day that he came here last April, through an arrangement with the German secret service, for the purpose of blowing up or delaying steamers sailing from this country with arms and ammunition for the allies.

Fay declared, however, that while here he had acted independently of the German embassy, or other German agents here. He added that he had told Capt. von Papen, military attaché, and Capt. Boy-Ed, naval attaché of the German embassy, of his plans, but said that both told him not to interfere with steamers sailing from American ports or American ammunition plants.

Fay and his brother-in-law, Walter L. Scholz, were arraigned at Weehawken earlier in the day on charges of conspiracy, and were held without bail for an examination to-morrow. Fay and Scholz were arrested by New York and New Jersey detectives near Grantward, N. J., late Sunday while the two men were experimenting with explosives.

Paul Daeché, of Jersey City, was arrested at his home early to-day, and was also arraigned, charged with conspiracy and held without bail. Detectives said, however, that Daeché had given them much valuable information, and they expected him to be an important witness in the case.

### Complete Confession.

Fay said that while serving in the field with the German army he invented a device for blowing up ships. He explained that he made the device after the French artillery, especially the 75-millimeter guns, had bothered his regiment a great deal.

Police announced that Fay had made a complete confession of his activities during his stay here, and later the prisoner gave out a statement to the newspapers. In that he said: "My only object when I came to this country was to interfere with the enormous shipments of artillery ammunition to the allies. Being a manufacturer myself, and knowing that any ordinary damage that may be done to a factory may be repaired within a few hours, I decided it was useless to bother with ammunition plants. Therefore, the intimations that I have been connected with various explosions or accidents that have occurred in such plants in the United States is entirely wrong."

Fay said that he and Scholz had conducted experiments with his mine device along the Hudson river, but declared that Daeché was in no way implicated. He said that he was a German and denied that his father had been an Englishman. Fay said he was well supplied with money when he arrived here, and, therefore, was able to act on his own responsibility.

"When the German secret service arranged for my trip to the United States they left the advisability of using my device to the judgment of German military and naval authorities in this country," said Fay. "Both Capt. von Papen and Capt. Boy-Ed strongly refused to make any use of my device in this country, but said that its use in Canada would depend upon developments."

Lieut. Fay explained how he planned to attach mines carrying his device to the sterns of ammunition-laden vessels sailing from New York. By properly arranging the device, he calculated, the mine would be exploded when the steamer was about half a day out. He declined to say whether he had attempted to attach mines to any ships in this harbor, but declared he had not attached loaded mines to any vessel.

Twelve Lose Lives in Fire.

Pittsburg Box Factory Destroyed—Several Seriously Hurt.

Pittsburg, Pa., Oct. 25.—Eleven girls and one man are known to have lost their lives, and a number of other employees of the Union Paper Box Company are missing, as results of a fire which this afternoon destroyed the company's factory on the north side. Some of the bodies recovered were so badly burned as to make identification difficult.

The identified dead are Marcella Rauch, Cecelia Jose, Thelma Haag, Florence Becke, Peter A. Vallon.

The fire started in a feed store on the first floor of the three-story building in which the box factory was located, and burned so fiercely that escape by means of the stairways and fire escapes were cut off. A number of girls were caught as they jumped from the building, but many of them were injured. Firemen still searching the ruins feared that some bodies would be discovered, as not all the 26 girls and six men employed in the factory have been accounted for.

Of the 12 known dead, 11 were burned to death, and one, Mary Bitter, died on the way to a hospital as a result of injuries sustained in jumping. Seven other girls were removed to hospitals suffering from burns and broken limbs.

7 MEMBERS OF FAMILY KILLED.

Husband and Father Alone Escaped When Train Hit Automobile.

Detroit, Mich., Oct. 24.—Seven members of one family were killed and an eighth was fatally injured to-day when a Grand Trunk passenger train struck an automobile at Frazier, 16 miles from Detroit. The dead are Mrs. Rachael Stoldt, her daughters and Miss Minnie Engel, a sister of Mrs. Stoldt.

William Stoldt, a farmer of Troy, Mich., the husband and father, was the only one of the family left alive. Physicians say he cannot live.

There were no witnesses of the accident. Apparently Stoldt, who was driving the automobile, did not see or hear the train, and drove the machine on the crossing directly in front of the locomotive. The train was stopped and the crew gathered up the bodies, scattered along the right-of-way a distance of a quarter of a mile.

### THE KELLEY-PARROTT WEDDING

Brilliant Occasion at Home of Mr. and Mrs. John A. Kelley Wednesday.

New Hope, Oct. 23.—Special: What was without doubt the most brilliantly appointed home wedding that has ever taken place in the New Hope community occurred last Wednesday, October 20th, at the pretty home of the bride's parents, Mr. and Mrs. John A. Kelley, when their daughter, Miss Pauline, became the bride of John Christopher Parrott, of Washington, D. C.

The lower floor was artistically decorated with foliage plants, ferns and quantities of yellow and white chrysanthemums. The guests were met at the door by Mrs. D. H. Kennemur, sister of the bride, and ushered into the living room. In the parlor, where the ceremony was performed, the color scheme, green and yellow, was tastefully carried out. Green vines, draped with yellow mull, and twelve burning candles formed a lovely arch under which the bridal party stood.

Promptly at 3 o'clock Miss Olive Jean Parrott, niece of the groom, sounded the wedding march (Mendelssohn's). Miss Mae Kelley, maid of honor and cousin of the bride, entered with Freeman Parrott, brother of the groom, who attended the groom as best man. She wore a lovely gown of pale blue crepe de chine, with real lace and satin ribbon trimmings. Then came the bride and groom, and the solemn and impressive marriage ceremony (with the ring) of the Baptist church was performed by the bride's pastor, Rev. L. D. Mitchell, of Walhalla.

The bride, who was attractively gowned in a midnight blue traveling suit of broadcloth, with hat and all accessories to match, carried an exquisite bouquet of bride's roses and asparagus ferns. Her only ornament was a lovely pearl necklace, the gift of the groom.

Immediately after the ceremony a sweet course was served, Misses Fannie Smith, Virginia McMahan, Lona Merritt and Fannie Kelley assisting in serving. The bridal party and immediate family were served in the dining room, which was prettily decorated.

Mrs. Parrott is the third daughter of Mr. and Mrs. John A. Kelley. She is a brunette of exceptional beauty, and possesses a charming personality that wins friends as it makes acquaintances. The groom is a young man of sterling qualities and holds a responsible position in the United States Treasury Department.

About 5 o'clock the young couple left in an automobile for Seneca, where a reception was given them at the home of Mr. and Mrs. J. S. Parrott. Later they boarded train No. 20 for New York and other Northern points. They will be at home in Washington about November 10th.

A magnificent display of wedding presents bore silent testimony to the popularity of this young couple; and a host of friends join in heartiest good wishes for their happiness.

Those from a distance were Mr. and Mrs. J. S. Parrott, Miss Olive Jean Parrott, Mr. and Mrs. Chas. R. Knox, Mrs. R. H. Boyd, Walter Kelley and Bert Tribble, of Seneca; J. A. Smith and daughter, Miss Fannie, and Miss Lona Merritt, Esley; Miss Katie Abbott, Walhalla; Mr. and Mrs. W. A. Taylor, West Union; Mr. and Mrs. D. H. Kennemur, J. B. Kelley, Wm. Hunt, Ernest and Homer Gantt, Mr. and Mrs. J. M. Hunt, Liberty; Misses Ruth Hunnicutt, Coddie Taylor and Mary Gantt, O. W. Kelley, Newry; Mrs. L. K. Kelley and Miss Mae Kelley, Greenville; C. W. Parrott and son, Hartwell, Ga.; Mrs. H. Earle Bates, Greer; Freeman Parrott, Washington, D. C.

New Zealand cattle raisers have found that the meat of dressed calves retains its flavor better when exported long distances if the skins are left on until ready for market.

Heemen attempted to arrest Cohen Davis for disorderly conduct. His brother, Tom Davis, sided with Cohen and attempted to restrain the officers from taking him.

There was a great deal of excitement and no one seems to know who fired the first shot, nor how the shooting actually started. The firing took place under the main tent just before time for the show to start.

The crowd disbanded and the performance did not take place.

The Davis men both lived near Lavonia. They were reared in this section and stood well in this community. Tom Davis was married and leaves two children, almost grown. Cohen Davis was unmarried.

It is thought the officers are only slightly wounded, both receiving scalp wounds.

So far as is known no parties connected with the show had anything whatever to do with the affair.
